A global outlook for a global industry

The Canadian Mining Symposium went virtual in June and something wonderful happened; the world engaged. The idea was to "virtualize" our premier event, The Canadian Mining Symposium, which for years has brought the best of Canadian mining and exploration to the UK investment crowd. We were excited by the idea of not being constricted to the physical confines of four walls, as we knew this would allow us to bring the Symposium to a more diverse audience of investors...what we didn’t realize was how many of you were paying attention from around the world.

Over 2,000 Individuals from over 80 countries wound up participating in the Canadian Mining Symposium, and that inspiring fact made us think more globally for our next Symposium, a change in emphasis that is reflected in the new name. Mining and exploration readers, listeners and watchers from around the world we are pleased to bring to you The Northern Miner’s first Global Mining Symposium. The array of international speakers (several will be getting up very early or staying up late so that you can experience their live comments from Australia and Europe) and the slate of projects and innovations from all four corners of the globe will be on full display, not only for your viewing but also for you to engage with.

The live questions and responses of the last symposium was the other feature that completely energized our team. You, the audience, got right in there and both the quantity and quality of your questions made for a more lively virtual experience than we had ever envisioned. So kudos to all of you for being so on point. For our part we are only too happy to create a new opportunity for you to be informed but also to inform us.

Look forward to seeing and hearing from you all from September 1st to 3rd. Best regards!

SEPTEMBER 1-3, 2020

Global Mining Symposium

A rebound is on the horizon

The impacts of the global pandemic has reduced both production and consumption of minerals and manufactured metal products globally. As organizations across their global operations respond to emerge from the crisis, positioning operations for a future rebound will ensure they are well equipped to thrive in the post-COVID-19 world.

In collaboration with CRU Group, our energy and resources dashboard offers a clear, real-time understanding of key commodity prices and industry trends that can help mining organizations prepare for the eventual rebound.

© Deloitte LLP and affiliated entities.
John Antwi
Founder, president and director, Elim Mining
John Antwi is a mining executive with over 26 years of experience in mine technical and financial services and has a knack for identifying geologic assets with potential. John has expertise in implementing portfolio optimization initiatives and recommending project development opportunities to support corporate strategic objectives. He began his career providing geological services for a gold mining company in Africa and in his executive roles has overseen growth initiatives and mergers and acquisitions in the U.S. and Canada. Until Hecla’s acquisition of Klondex Mines, John was Klondex’s senior vice president for corporate development and planning. He is on the board of the American Exploration and Mining Association and has a degree in geological engineering from KNUST, Ghana, and a masters in mineral economics from the Colorado School of Mines.

Michelle Ash
CEO, GEOVIA – Dassault Systèmes
Michelle Ash is the CEO of GEOVIA at Dassault Systèmes. She has made significant contributions to the mining sector with a focus on innovation strategy, technology and digital transformation. Previously she was chief innovation officer at Barrick Gold, where she looked at how innovation can drive productivity and how it can be harnessed to deliver alternative business models. Michelle began her career as a blasting engineer with Rio Tinto and has held operational roles in mining companies across commodities. Michelle remains focused on delivering sustainable solutions through digital transformation and the 3DEXPERIENCE platform. As Chair of the Global Mining Guidelines Group, Michelle has contributed to the development of best practices and guidelines for the implementation of technology and socially enabled changes in the mining industry. She was named to the 2016 list of "100 Global Inspirational Women in Mining" by Women in Mining UK and won the Technology Innovator of the Year Award by Mines and Technology in 2019. She has a degree in civil engineering, an executive MBA and a degree in psychology.

Robert Baylis
Managing director of Roskill
Robert Baylis joined Roskill, a leading source on battery raw materials, in 2006, focusing initially on the cobalt market, and since 2008 on the lithium market. Robert has worked on Roskill’s published reports and single-client projects across the battery raw materials spectrum, as well as on technology metals, and critical and strategic minerals such as rare earths, scandium, tellurium and hafnium. Robert has presented widely on various topics concerning mineral and metal supply, end-use developments and trends.

How focused are your reviews?
Paul Brink
President and CEO, Franco-Nevada

Paul Brink is president and CEO and a director of Franco-Nevada. He has been with Franco-Nevada since its IPO in 2007. He served as president and chief operating officer from May 2019 to May 2020 and prior to that, successfully led Franco-Nevada’s business development activities as SVP Business Development. He previously had roles in corporate development at Newmont, investment banking at BMO Nesbitt Burns and project financing at UBS. Paul holds a Bachelor’s degree in mechanical engineering from the University of Witwatersrand and a master’s degree in management studies from Oxford University.

John Hathaway
Managing Director, Senior Portfolio Manager, Sprott Asset Management

John Hathaway joined Sprott Asset Management in January 2020. He is a portfolio manager of Sprott Hathaway Special Situations Strategy and co-portfolio manager of the Sprott Gold Equity Fund. Previously, John joined Tocqueville Asset Management L.P. in 1997 where he was a co-portfolio manager of the Tocqueville Gold Fund, as well as other investment vehicles in the Tocqueville Gold Equity Strategy. He was also the portfolio manager of private funds. Prior to joining Tocqueville, John co-founded and managed Hudson Capital Advisors followed by seven years with Oak Hall Advisors as the chief investment officer in 1986. In 1976, he joined the investment advisory firm David J. Greene and Company, where he became a partner. John began his career in 1970 as an equity analyst with Spencer Trask & Co. He earned a B.A. from Harvard College and an MBA from the University of Virginia. John was also the chairman of Tocqueville Management Corp., the general partner of Tocqueville. He also has a CFA.

Clive Johnson
President, CEO & Director, B2Gold Corp.

Clive Johnson is a founding shareholder of B2Gold Corp. and has served as president, CEO and director since its inception in November 2006, and leads the company’s executive team. From Northeast Russia to South Africa, Clive, through his leadership roles in B2Gold and predecessor company, Bema Gold Corp., has been involved in exploration and gold mining in 12 countries. Clive is recognized for combining his entrepreneurial business approach to the mining industry with one of the industry’s most experienced and successful teams of geologists and engineers. He is also well known for his commitment to corporate social responsibility. Based on his personal and professional credo of fairness, respect, transparency and accountability, Clive leads B2Gold’s commitment to improve the lives of all the company’s employees and local communities worldwide. Clive is a past recipient of both the Viola MacMillan Developer’s Award from the Prospectors & Developers Association of Canada and the Pacific Entrepreneur of the Year Award for Mining and Metals.

FEATURED SPEAKERS

Peter Marrone
Executive chairman, Yamana Gold

Peter Marrone is the executive chairman of Yamana Gold Inc., which he founded in 2003. Peter has more than 30 years of mining, business, and capital markets experience. He has been on the boards of a number of public companies and has advised companies with a strong South American and North American presence. Prior to Yamana, Peter was the head of investment banking at a major Canadian investment bank and before that practiced law in Toronto with a strong focus on corporate law, securities law and international transactions.

Ronald-Peter Stoeferle
Managing partner, Incrementum AG

Ronald-Peter Stoeferle is managing partner of Incrementum AG and responsible for research and portfolio management. Ronald studied business administration and finance in the U.S. and at the Vienna University of Economics and Business Administration. Upon graduation he joined the research department of Erste Group, where in 2007 he published his first In Gold We Trust report. Since 2013 he has been a reader at scholarium in Vienna, and he also speaks at Wiener Börse Akademie (the Vienna Stock Exchange Academy). In 2014, he co-authored the “Austrian School for Investors” and in 2019 “Die Nullzinsfalle” (The Zero Interest Rate Trap). He is an advisor for Tudor Gold, and on the advisory board of Affinity Metals. He is also an advisor to Matterhorn Asset Management.

AGENDA | DAY 1 - TUESDAY | SEPT 1, 2020

10:00 AM The Northern Miner Welcome Remarks | Anthony Vaccaro, Group Publisher, The Northern Miner Group
10:10 AM SolGold Opening Remarks | Nick Mather, CEO, SolGold Plc
   Impact Investing Panel | The rise of Impact Investing and what it could mean for miners
   Moderator: Andrew Cheatle, Non-Executive Director/Director, Condor Gold plc/Troilus Gold
   Tom Butler, CEO, ICMM
   Elizabeth Freele, Founder and Principal, 4P Solutions Inc.
   Christelle Kopa, Founder and Chief Executive, Ubushano Capital
   George Salamis, President and CEO, Integra Resources Corp.
10:15 AM Executive Presentation | Paul Brink, President and CEO, Franco-Nevada Corp.
   Moderator: Anthony Vaccaro, Group Publisher, The Northern Miner Group
11:00 AM Rail-Veyor Presentation | Jim Fisk, Executive Chairman, Rail-Veyor Technologies Global Inc.
   Lisa Younghblood, Executive Director of Marketing and Communications, Rail-Veyor Technologies Global Inc.
11:40 AM Featured Speaker Presentation | Regional Supply Chains and Implications for Some Key Metals — Robert Baylis, Managing Director, Roskill
   Moderator: Frik Els, Executive Editor, MINING.com
11:50 AM Executive Presentation | Paul Brink, President and CEO, Franco-Nevada Corp.
   Moderator: Anthony Vaccaro, Group Publisher, The Northern Miner Group
12:00 PM Canada Nickel Company Investor Presentation | Mark Selby, Chairman, CEO and Director, Canada Nickel Company Inc.
12:40 PM Newrange Gold Corp. Investor Presentation | Robert Archer, CEO and Director, Newrange Gold Corp.
12:50 PM Auryn Resources Investor Presentation | Ivan Bebek, Executive Chairman and Director, Auryn Resources
   Deloitte Thought Leadership Panel | Shifting from Commitments to Action, How Sustainability Is Shaping the Modern Mining Company
   Moderator: Henry Stoch, Canadian Sustainability and Climate Change Leader, Deloitte
   Marcia Smith, Senior Vice President, Sustainability and External Affairs, Teck Resources
   Ian Pearce, Chair and Independent Director, Hattrick Resources
12:55 PM Sokoman Minerals Corp. Investor Presentation | Tim Froude, President, CEO and Director, Sokoman Minerals Corp.
1:10 PM New Age Metals Investor Investor Presentation | Harry Barr, Chairman, CEO and Director, New Age Metals Inc.
1:25 PM Renforth Resources Investor Presentation | Nicole Brewster, President and CEO, Renforth Resources Inc.
2:40 PM Closing Remarks
10:00 AM The Northern Miner Welcome Remarks | Anthony Vaccaro, Group Publisher, The Northern Miner Group

10:15 AM SoGold Opening Remarks | Nick Mather, CEO, SoGold Plc

10:20 AM Featured Speaker Presentation | Ronald-Peter Stoferle, Managing Partner and Fund Manager, Incrementum AG
Moderator: Alisha Hiyate, Editor, Canadian Mining Journal

11:00 AM Cobalt Blockchain Investor Presentation | Lance Hooper, President and COO, Cobalt Blockchain Inc.

11:10 AM Sokoman Minerals Corp. Investor Presentation | Tim Froude, President, CEO and Director, Sokoman Minerals Corp.

11:15 AM Executive Presentation | Peter Marrone, Executive Chairman, Yamana Gold Inc.
Moderator: Trish Saywell, Editor-in-Chief, The Northern Miner

11:55 AM Rail-Veyor Presentation | Jim Fisk, Executive Chairman, Rail-Veyor Technologies Global Inc.
Lisa Youngblood, Executive Director of Marketing and Communications, Rail-Veyor Technologies Global Inc.

12:00 PM Renforth Resources Investor Presentation | Nicole Brewster, President and CEO, Renforth Resources Inc.

12:20 PM Golden Arrow Investor Presentation | Brian McEwen, VP Exploration and Development, Golden Arrow Resources Corporation

12:40 PM Wallbridge Mining Investor Presentation | Marz Kord, President, CEO and Director, Wallbridge Mining Company Limited

12:52 PM Auryn Resources Investor Presentation | Ivan Bebek, Executive Chairman and Director, Auryn Resources
Mike Timmins, President, CEO and Director, Fury Gold Mines

1:00 PM TMX Group Thought Leadership Panel | John Hathaway, Managing Director, Senior Portfolio Manager, Sprott Asset Management
Moderator: Dean McPherson, Head of Business Development, TMX Group

1:40 PM Pelangio Exploration Investor Presentation | Ingrid Hibbard, President and CEO, Pelangio Exploration Inc

1:50 PM Newrange Gold Corp. Investor Presentation | Robert Archer, CEO and Director, Newrange Gold Corp.

2:00 PM Executive Presentation | Michelle Ash, CEO, GEOVIA – Dassault Systèmes
Moderator: Carl A. Williams, Senior Reporter, The Northern Miner

2:40 PM Closing Remarks
AGENDA | DAY 3 - THURSDAY | SEPT 3, 2020

10:00 AM The Northern Miner Welcome Remarks | Anthony Vaccaro, Group Publisher, The Northern Miner Group
10:15 AM Golden Birch Resources Investor Presentation | Alan Martin, President and CEO, Golden Birch Resources
10:25 AM Renforth Resources Investor Presentation | Nicole Brewster, President and CEO, Renforth Resources Inc.
10:30 AM SRK Thought Leadership Panel | Feasibility Studies: Value Add or Necessary Evil?
   Moderator: Mark Noppé, Managing Director and Corporate Consultant (Geology), SRK Consulting
   Dr. Catharine Farrow, Chair, Exiro Minerals Corp.
   Michael Spreadborough, CEO, Metals X Limited
11:16 AM Auryn Resources Investor Presentation | Ivan Bebek, Executive Chairman and Director, Auryn Resources
   Mike Timmins, President, CEO and Director, Fury Gold Mines
11:29 AM Featured Speaker Presentation | John Antwi, President and Director, Elim Mining Limited
   Moderator: Anthony Vaccaro, Group Publisher, The Northern Miner Group
11:54 AM AurCrest Gold Investor Presentation | Ian A. Brodie-Brown, Director of Business Development, AurCrest Gold Inc.
   Rail-Veyor Presentation | Jim Fisk, Executive Chairman, Rail-Veyor Technologies Global Inc.
   Lisa Younghblood, Executive Director of Marketing and Communications, Rail-Veyor Technologies Global Inc.
12:20 PM NexGen Energy Investor Presentation | Travis G. McPherson, Senior Vice President, Corporate Development, NexGen Energy Ltd.
12:30 PM Sokoman Minerals Corp. Investor Presentation | Tim Froude, President, CEO and Director, Sokoman Minerals Corp.
1:00 PM Newrange Gold Corp. Investor Presentation | Robert Archer, CEO and Director, Newrange Gold Corp.
1:05 PM Executive Presentation | Clive Johnson, President, CEO and Director, B2Gold Corp.
   Moderator: Cecilia Jamasmie, Senior Editor, MINING.com
2:55 PM Closing Remarks

**Deloitte**

At Deloitte, we see a ‘Connected energy future’, where we’re all in it together, with a common purpose, and each with a clear role to create our new energy world.

We understand the challenges and opportunities the future of energy brings and actively help our clients accelerate impact on their markets, stakeholders and society. Deloitte is ideally placed to take a leading role in connecting the ecosystem of businesses, innovators, regulators and thought leaders that will make this change possible. Through our scale and sector knowledge, we leverage the connected strength of our strategy, implementation, innovation and social solutions to create the right value balance for our clients.

---

**TMX**

The TMX Group operates the Toronto Stock Exchange and the TSX Venture Exchange. The two exchanges are dynamic marketplaces to access the capital and liquidity that drives the growth of the global mining industry. The Toronto Stock Exchange and the TSX Venture Exchange list more mining companies than any other market in the world. As a result, the exchanges have the most diversified roster of public mining companies by commodity and stage of development. These companies benefit by having greater access to capital, visibility and analyst coverage.

---

**srk consulting**

We are an independent, international consultancy providing focused advice and solutions to clients, mainly in the earth and water resource industries.

For mining projects, we offer services from exploration to mine closure. Our specialists are leaders in fields such as due diligence, technical studies, mine waste and water management, permitting, and mine rehabilitation. Applying their extensive knowledge and experience, our consultants develop innovative approaches and practical techniques that meet clients’ unique needs and financial objectives. Among our clients are many of the world’s major, medium-sized, and junior metal and industrial mining houses, exploration companies, financial institutions, construction firms, and government departments.
Auryn Resources is a technically driven, well-financed junior exploration company focused on finding and advancing globally significant precious and base metal deposits. The company built a portfolio of six projects in Canada and Peru containing gold, silver and copper resources and exploration targets. In July 2020, Auryn announced its intention to spin out its Peruvian operations into two new companies and acquire Eastmain Resources, creating a new Canadian focused company named to be called Auryn Resources. Upon closing of the spin-out and acquisition transactions, expected in October 2020, Fury’s three core assets will comprise Eau Claire in Quebec and NovaGold’s Red Eagle in Newfoundland and the combination will trade under the ticker symbol FURY on the TSX. Fury will be the controlling shareholder of FURY and will also receive shares of the two new Canadian spin out companies, one holding the Simbrey copper-gold project, the other holding the other five projects. Fury will continue to use its powerful in-house exploration and development team to add to its robust pipeline of high-quality assets, seeking to maintain its status as one of the best-compensated companies in the mining sector.

Newrange Gold Corporation (CSE: RNW) is a junior gold explorer focused on the high-grade Porcupine Project in the Porcupine mining camp, western Ontario. One of the highest-grade gold mining districts in Nevada, the property has a proven history that has seen extensive drilling, permitting and mineral resources. Newrange has acquired a significant new resource in the Porcupine Project. The company is now targeting a resource at the new discovery. Newrange will be working to outline a multi-ton resource at this discovery using a combination of drilling and trenching. Newrange is well positioned to define and develop this new resource using its current capital structure and in conjunction with its proposed flagship redeployment and development plan.

SolGold is a leading exploration company focussed on the discovery and definition of world-class copper-gold deposits. SolGold is a first mover in Ecuador, a prospective yet under-explored section of the Andean Copper Belt, home of multiple Tier 1 copper and gold projects and half the right team, track record and resources to succeed.

Sokoman Minerals Corp. (TSXV: SOK) is a well-funded discovery-oriented company with a flagship Muskrat-Foul Bay gold property located on the structural corridor hosting Marathon Gold’s (TSX: MOZ) Valentine Lake project with estimated proven and probable mineral reserves of 1.8 Moz of gold and 1 Moz of Measured and Indicated gold. Sokoman’s flagship project, Muskrat-Foul Bay, is a high-quality district scale gold project with 2.9 Moz of Measured and Indicated gold and 3 Moz of Measured and Inferred gold. Sokoman has a significant 100% ownership interest, with two positive PFSs on the property. Sokoman is well positioned to advance the project to production, leveraging its track record of delivering high quality projects. Sokoman has a strategic focus on high-quality gold properties and is actively pursuing a strategic alliance or sale of the company.

Renforth Resources’ (CSE: RFR) flagship project, Parbec Gold, is a relatively shallow Parbec Gold deposit, which neighbours Canada’s largest open pit gold mine. Renforth has also completed a significant 123 holes in five phases totalling almost 28,000 metres, many of them showing visible gold and high grades. An aggressive phase six drill program will commence in September 2020, designed to increase the current resource base from 1 million ounces to 2.2 million ounces of Measured plus Indicated gold. With its strategic focus on high-quality gold properties, Renforth has a significant competitive advantage in the exploration of mineral deposits.

Newcrest Mining is a global gold producer listed on the ASX and ASX 50 with operations in three regions: Australia and New Zealand; the Americas; and South East Asia. Newcrest has the capability to deliver high quality gold at competitive costs. Newcrest is well positioned to define and develop exceptional new deposits. Newcrest is focused on delivering growth and increasing returns to shareholders. Newcrest has a unique and successful history of delivering large, low-cost mine development projects and is well positioned to continue this track record in the future.

Global Resource Companies

The company provides access to a wealth of information and has been successful in the mining industry. Newcrest has been shown to be a successful mining company that has been able to generate considerable value for its shareholders. The company is currently developing the value of its gold exploration and resource projects focused on the development of green metal projects in North America. The company has identified a significant high-grade gold deposit in the Canadian Shield, which has the potential to host a multi-million-ounce gold deposit. Newcrest is well positioned to define and develop this new resource using its current capital structure and in conjunction with its proposed flagship redeployment and development plan.

Pelangio Exploration Inc. (TSXV: PEL) is a junior mining company currently developing the value of its gold exploration and resource projects focused on the development of green metal projects in North America. The company has identified a significant high-grade gold deposit in the Canadian Shield, which has the potential to host a multi-million-ounce gold deposit. Pelangio is focused on delivering growth and increasing returns to shareholders. Pelangio has a unique and successful history of delivering large, low-cost mine development projects and is well positioned to continue this track record in the future.

Newcrest Mining is a global gold producer listed on the ASX and ASX 50 with operations in three regions: Australia and New Zealand; the Americas; and South East Asia. Newcrest has the capability to deliver high quality gold at competitive costs. Newcrest is well positioned to define and develop exceptional new deposits. Newcrest is focused on delivering growth and increasing returns to shareholders. Newcrest has a unique and successful history of delivering large, low-cost mine development projects and is well positioned to continue this track record in the future.
Robert (Bob) Archer • CEO and director, Newrange Gold Corp.

Robert Archer has more than 40 years of experience in the mining industry, working throughout North America and Peru. After spending more than 15 years with major mining companies, Robert held several senior management positions in the junior mining sector and co-founded Great Panther Mining, now a mid-tier precious metals producer. He served as president, CEO and a director of Great Panther from 2004-2017. Robert joined Newrange Gold as a director in March 2018 and was appointed CEO in January 2019. Robert is a professional geologist and holds an Honours BSc from Laurentian University in Sudbury, Ontario.

Harry Barr • Chairman, CEO and director, New Age Metals

Harry Barr has over 40 years of experience in the mining industry managing public companies. Currently Harry is the chairman and CEO of New Age Metals and El Nino Ventures. He is also on the board of directors of both companies. Harry has created shareholder value by building teams to assist him in corporate finance, project acquisition, and exploration and development of mineral projects in nine countries and three continents. As a CEO, he has guided his management teams to complete over 43 option joint venture agreements with major mining companies, and over 300 with mid-tier and junior mining companies. Harry and his team have raised approximately $300 million in non-brokered private placements, other equity arrangements and option joint venture agreements.

Ivan Bebek • Executive chairman and director, Auryn Resources

Ivan Bebek is executive chairman and a director of Auryn Resources. He has over 20 years of experience in mineral project development, financing and exit strategies. Previously, he was co-founder, president and CEO of Cayden Resources, which was sold to Agnico Eagle Mines in November 2014 for $205 million. He also co-founded Keegan Resources (now Galliano Gold). He is also a co-founder, co-chairman and a director of Torq Resources, formerly known as Stratton Resources.

Nicole Brewster • President and CEO, Renforth Resources Inc.

Nicole Brewster brings an early career in capital markets and a successful private practice as an exploration contractor, experienced in acquiring and leveraging data to execute targeted exploration within budget for clients. This supported a re-invigoration of Renforth, today with six mineralized assets, including two open pit gold resources on Quebec’s Cadillac Break. In addition to assembling a compelling land package for Renforth, Nicole has signed an LOI to sell the New Alger asset at a profit for shareholders. This transformative first will, upon closing, have Renforth fully funded for the foreseeable future, able to focus on adding value to the rest of the portfolio, specifically the Parbec open pit gold resource, with no additional dilution.

Ian A. Brodie-Brown • Director of business development, AurCrest Gold

Ian Brodie-Brown has spent his career in the resource business and worked around the globe representing the mining profession as an executive and as a consultant. Participating in the establishment of an annual forest carbon harvest business in partnership with Canada’s First Nations is one of the highlights of his career. Whether working in Afghanistan for the U.S. government’s task force for business stability operations or creating a First Nations exploration company, Ian is always looking for the next great opportunity in the resource business.
Tom Butler • Chief Executive Officer, International Council on Mining and Metals (ICMM)

Tom Butler has been the CEO of ICMM since July 2015. Before that, he spent 18 years with the International Finance Corporation (part of the World Bank Group) on the infrastructure and natural resource teams, focused mainly on mining and power projects in Africa. From 2011, Tom was IFC’s global head of mining, where he led a multi-disciplinary team of specialists for IFC’s financing of mining and exploration and development in emerging market countries.

Andrew Cheatle • Mining Executive

Andrew Cheatle is an experienced geoscientist, seasoned CEO and director within the mining industry. A professional geoscientist and graduate of the Royal School of Mines, Imperial College, London, Andrew’s 30-plus-year international career has encompassed the senior and junior mining sectors. Based in London (UK) and Toronto (Canada), he is a sought-after advisor to the minerals industry, specializing in technical assessments, corporate development, and investments. Andrew sits on the board of Condor Gold plc and Troilus Gold, and also volunteers on the advisory councils of the Development Partner Institute, the Canada-International Finance Corporation, Africa Local Economic Development Partnership and as a director of International Women in Mining. He is passionate about the mining industry’s role in community and national development.

Jim Fisk, Executive Chairman • Rail-Veyor Technologies Global Inc.

Jim Fisk has an extensive background in engineering, manufacturing, and entrepreneurship and has been executive chairman of Rail-Veyor Technologies Global Inc. since July 2011. Prior to joining RVTG, Jim served as vice president-chief mechanical officer at Kansas City Southern; vice president continuous improvement at Electro-Motive Diesels, Inc.; president and chief operating officer at National Railway Equipment Company; and executive vice president at Wisconsin Central, where he had responsibilities for North America, Europe and Australia.

Elizabeth Freele • Founder and principal of 4P Solutions Inc.

Elizabeth Freele is a sustainability strategist and impact investor and is driven by the innate potential of business to tackle humanity’s biggest challenges. A self-proclaimed Conscious Capitalist, her mining industry work supports junior explorers to mature mid-tier producers from the field to the boardroom in developing future-ready corporate responsibility and risk management approaches. As CEO of boutique consultancy 4P Solutions Inc., her geographic reach includes the Americas, Africa, Europe and the Middle East. Outside the industry, Elizabeth is a senior associate with venture capital firm Active Impact Investments, advancing seed-stage tech companies that reduce GHG emissions through smarter resource consumption. Elizabeth holds an MBA from IE Business School, a certificate in sustainable business strategy from Harvard Business School, and a bachelor’s degree in political science and global development from Western University.

Dr. Catharine Farrow • Chair, Exiro Minerals Corp.

Dr. Catharine Farrow is a professional geoscientist (APGO) and accredited corporate director (ICD.D). She currently serves as an independent director of Franco-Nevada Corporation, Eldorado Gold Corporation, and Centamin PLC, is chair of the board of Exiro Minerals Corp., and is the inaugural member of the advisory board of Behr Technologies Inc., an Industrial IoT technology company. Catherine is president of FarExGeoMine Ltd., a member of the Metrolinx Capital Oversight Subcommittee, and a program director of the Osgoode Mining Law Program at York University. From 2012 to 2017, she was founding CEO, director and co-founder of TMAC Resources Inc., the first producing gold miner with operations in Canada’s High Arctic. Before TMAC, she was COO of KGHM International (formerly Quadra FNX Mining Ltd.). Prior to this she held multiple senior executive roles in a wide range of disciplines including operations, technical services, corporate development and exploration. Catharine has been honoured with the Acadia University Distinguished Alumni Award for 2020, as one of the 100 Global Inspirational Women in Mining (2015 and 2018) and is a past recipient of the William Harvey Gross Medal of the Geological Association of Canada (2000).
Profitable.
Clean.
Safe.

Tim Froude • President, CEO and director of Sokoman Minerals Corp.

Tim Froude is a graduate of Newfoundland’s Memorial University and has been active in the mineral exploration business for over 30 years. Over that time, he has worked with a number of companies including Inco Ltd., where he spent nearly 10 years working on projects in North America and overseas and was part of the team that discovered the Bobby’s Pond massive sulphide deposit in central Newfoundland. Tim was also involved in the discovery of the Valentine Lake gold deposit in Central Newfoundland, which is currently being advanced by Marathon Gold. Over the course of his career, Tim has worked for a number of successful junior companies including Altius Minerals, Cornerstone Resources, Crosshair Exploration and Mining Corp., and Golden Dory Resources, the latter three companies as vice president of exploration. He also spent a year serving as executive director of the Newfoundland and Labrador Chamber of Mineral Resources, now Mining NL.

Ingrid Hibbard • President and CEO of Pelangio Exploration

Ingrid Hibbard is a mining CEO with over 30 years of experience spanning all facets of the industry from early-stage exploration to mine development and production. Her achievements include negotiating the acquisition of the Detour gold mine property for Pelangio Larder Mines and participating in founding Detour Gold Corp. Ingrid also negotiated the acquisition of a district-size land package in Ghana, adjacent and on strike with the Obuasi mine owned by AngloGold Ashanti. Hibbard began her career in mining by practicing corporate and securities law with clients that included multi-national mining operations to mineral exploration companies and individual prospectors.

Lance Hooper • President and Chief Operating Officer, Cobalt Blockchain

Over the past twenty years Lance has played key roles as both an early employee and as a founder for emerging technology and mining companies. For the last decade Lance has held senior corporate positions and served as a director with private and public mining companies working in Canada, Peru, Afghanistan and the DRC. Since 2015 Lance has been the driving force behind a commodity trading venture specializing in ethnically-sourced tin, tantalum, tungsten — and now cobalt — originating from artisanal and small-scale mine sites in the DRC.

Marz Kord • President, CEO and director of Wallbridge

Marz Kord is a mining engineer with over 30 years of experience in mining operations and project management. Prior to joining Wallbridge in 2011, he held the position of executive vice president, global mining for Genivar Inc., a large Canadian firm, (now WSP Global), where he led the development and growth of the company’s domestic and international mining profile. During the early part of his career with Falconbridge Ltd., Marz was involved in mining operations in both Sudbury and Timmins. His expertise includes managing large, multidisciplinary teams of engineers and operators as well as extensive experience in developing strategic growth plans and in mergers and acquisitions.

Christelle Kupa • Founder and CEO of Uhusiano Capital

After years in investment banking where she worked on financial assets and instruments, Christelle Kupa decided to reorient her career towards impact investing and in 2016 founded Uhusiano Capital as an enterprise devoted to “real people, real projects, real assets, real impact.” Today Christelle is an internationally recognised leader in impact investment and Uhusiano Capital facilitates better business in the African impact investing sector, with a particular focus on agriculture and the economic empowerment of women. She is also an advocate and lecturer on sustainable impact capitalism and community bridging through business and bottom-up leadership. Christelle is Belgian-Congolese and has a degree in business and finance from Westminster University. She speaks French, Flemish, English, along with some basics of Swahili and Lingala.
Alan Martin • President, CEO and Managing Director of Golden Birch Resources

Alan Martin is the CEO of Golden Birch Resources, an exploration company with a joint venture on exploration licenses prospective for copper-gold porphyry deposits southeast of Port Moresby. Between May 2013 and May 2015, Alan was CEO and managing director of SolGold plc., and focused on the company’s Cascabel copper-gold project in Ecuador. He was a founding director of Atlas Resources, which in July 2015 secured an option to acquire 100% of the Red Mountain VMS property from Metallognition Inc. In early 2016, White Rock Minerals, an Australian junior mining announced a share for share merger with Atlas Resources. In 1995, Alan was a founding director of Austminex NL, initially a private exploration company that raised $8 million in a public offering in 2000. Austminex took its flagship asset, the Benambra VMS deposit in Victoria, Australia from advanced stage to bankable feasibility study in 2003. Earlier in his career Alan worked as a mining and metals analyst. He has a degree in geology from Lakehead University in Thunder Bay, Ontario.

Nick Mather • CEO of SolGold

Nick Mather is the CEO of Ecuador-focused SolGold and has 35 years of experience in exploration and resource company management in a variety of countries. He was managing director of BeMaX Resources (1997-2000) and instrumental in the 1998 discovery of the Ginkgo mineral sand deposit in the Murray Basin. As an executive director of Arrow Energy until 2004, Nick drove the acquisition and business development of Arrow’s large Surat Basin coal bed methane project in Queensland. He also was managing director of Auralia Resources, a junior gold explorer, before its US$23 million merger with Ross Mining in 1995. He was a non-executive director of Ballarat Goldfields until 2004, and was founder and chairman of Waratah Coal until its $130 million takeover by Mineralogy Pty Ltd. in 2008. Nick is also managing director of DGR Global Ltd. and sits on a number of boards.

Brian McEwen • Vice President Exploration and Development, Golden Arrow Resources

Brian McEwen is a professional geologist with more than 30 years of exploration and production experience in open-pit and underground mining projects and operations. The extent of his experience is global in managing numerous projects in Canada, the U.S., Europe, Asia, Africa and throughout Latin America. Brian’s previous roles include more than a decade with MRDI (AMEC Peru), where he was responsible for project management, economic resource and reserve calculations for various precious and base metal companies worldwide, including BHP Billiton, CM Antamina, Teck, Hochschild and Phelps Dodge, among others.

Dean McPherson • Head of Business Development at TMX Group

Dean McPherson is responsible for the development and execution of the global strategy for attracting new listings in the mining sector to the Toronto Stock Exchange and TSX Venture Exchange. Prior to the TSE, Dean worked as an investment banker, assisting mining companies to meet corporate finance and growth objectives. Before joining the capital markets, he worked for 10 years as a civil engineer, managing capital projects for a major international diversified mining company and a major international engineering services firm.

Travis McPherson • Senior Vice President, Corporate Development at NexGen Energy

Travis McPherson has worked in the mining industry for ten years and joined NexGen Energy in 2014. As NexGen’s senior vice president corporate development, he has played an integral role in raising $300 million for the company to date. Prior to NexGen, Travis was head of corporate development for a TSX-listed gold producer and developer where he was involved in a variety of corporate mandates including corporate strategy and budgeting, M&A, as well as mine permitting, feasibility, financing across the capital structure and construction. He began his career in the natural resources group of an independent boutique Canadian investment bank. He has a Bachelor of Commerce degree from the University of British Columbia’s Sauder School of Business.

SOKOMAN MINERALS CORP.

High-grade Moosehead Gold Project, a Fosterville look-alike in Central Newfoundland, Canada’s new hot mining district.

Mark Noppe • Managing director and corporate consultant (geology) at SRK Consulting

Mark Noppe has over 30 years of experience in geosciences and the mining industry working in operations and project assessments. As a consultant, Mark provides technical advice, mine and project reviews, process improvement studies and due diligence and audits. In addition, he provides training and mentorship in orebody knowledge—from exploration reporting, resource definition and reporting, mine geology, grade control and mine reconciliation, to inputs on reserves and feasibility studies. Mark is a fellow of the AusIMM and a chartered professional (geology).

Ian Pearce • Chairman of the board of Hattrick Resources, New Gold, and MineSense

Ian Pearce has over 35 years of experience in the mining industry. From 1993 to 2003, he held progressively more senior engineering and project management roles with Fluor Inc., including managing numerous projects in the extractive sector. From 2003 to 2006, Ian held executive roles at Falconbridge, including chief operating officer, and subsequently served as CEO of Xstrata Nickel, a subsidiary of Xstrata PLC, from 2006 to 2013. From 2013 to 2017, Ian was a partner of X2 Resources, a private partnership focused on building a mid-tier diversified mining and metals group. Ian serves as board chairman of MineSense Technologies, which seeks to improve the ore extraction and recovery process, and is a senior advisor at KoBold Metals, which deploys digital tools to discover new cobalt deposits. He is a director of Nexa Resources and vice chair and director of Outopec Oyj. He also served as board chairman of Nexsun Resources until its 2018 acquisition by Zijin Mining.

George Salamis • President and CEO of Integra Resources

George Salamis has over 30 years of experience in the mining and resource exploration industry. George has been involved in over $2 billion of M&A transactions, either through asset sales or his involvement with junior mining companies. He was most recently executive chairman of Integra Gold, which was sold to Eldorado Gold for $590 million. George co-led the efforts behind the 2016 Integra Gold Rush Challenge and the 2017 #DisruptMining initiatives that encouraged innovation and technology disruption in the industry. He has discovered, financed, built, managed or sold more than five major deposits around the world. George started his career working for Placer Dome and Cameco Corp. over a 12-year period before transitioning into mineral exploration and junior mining in 2001. He is a director at Contact Gold. George holds a degree in geology from the University of Montreal — École Polytechnique.

• Very healthy treasury from the sale of the in-house silver discovery to SSR mining for 44 million CAN
• The Company is actively exploring in Chile and Paraguay as well as in Argentina. With a pipeline of more than 185,000 hectares of high quality mineral projects
• District-scale high-grade gold project in one of the last frontiers of mineral exploration in South America

Mark Selby • Chairman and CEO of Canada Nickel

Since 2001, Mark Selby has been recognized as one of the leading authorities on the nickel market. Prior to joining Canada Nickel, Mark was president and CEO of RNC Minerals, where he led the team that successfully raised over $100 million and advanced the Dumont nickel-cobalt project from initial resource to a fully permitted, construction-ready project. He also previously has held senior management roles with Quadra Mining, Inco and Mercer Management Consulting. Mark is a graduate of Queen’s University with a Bachelor of Commerce (Honours) and served on the boards of multiple junior mining companies including currently as chair of gold explorer Orford Minerals.

Marcia Smith • Senior Vice President, Sustainability and External Affairs, Teck Resources

Marcia Smith joined Teck Resources in 2010 as vice president, corporate affairs, and has held the position of senior vice president, sustainability and external affairs, since January 2012. Marcia is responsible for a diverse portfolio including health and safety, sustainability, environment, communities, government relations, corporate affairs and relationships with Indigenous Peoples. Prior to joining Teck, Marcia was the managing partner of a leading Canadian public relations firm in B.C. She has a bachelor of arts degree (honours) in English and political science from Laurentian University.

Michael Spreadborough • CEO of Metals X Ltd.

Michael Spreadborough is the CEO of Metals X Ltd. and was most recently the managing director and CEO of Nusantara Resources and non-executive director of CleanTeq Holdings. Mike is a mining engineer and has over 20 years of experience in mining lead, zinc, uranium, copper, gold and iron ore. He has held wide-ranging roles including business and project development to operations and exploration. In recent times he was the general manager mining for WMC and later the vice president mining for BHP Billiton at the Olympic Dam mine in Australia. Previously, Mike was also general manager coastal operations for Rio Tinto, responsible for port operations and the Pannawonica mine site. He then assumed the position of chief operating officer for Inova Resources Ltd. (formerly Ivanhoe Australia) and Sandfire Resources.

Henry Stoch • Canadian Sustainability and Climate Change Leader at Deloitte

Henry Stoch is a B.C.-based partner at Deloitte and leads the company’s sustainability and climate change practice in Canada. For the last 15 years he has focused on serving North America’s most significant energy and resources companies, and has vast knowledge of risk management and assurance related to environment, safety and social issues, as well as sustainability disclosure and reporting.

Michael Timmins • President, CEO, and director of Fury Gold Mines

Michael Timmins brings over 20 years of experience as a mining executive from his work with a number of companies, including Agnico Eagle Mines and Placer Dome. Michael was vice president of corporate development at Agnico, where he played a key role in the development of the Kittila mine in northern Finland and in the $3.9 billion acquisition of Osisko Mining. He has degrees from Queen’s University (EMBA), the University of British Columbia (M. Sc. Metallurgy) and Bishop’s University (B.Sc.). Michael also serves as a director and audit committee member for Excellon Resources.

Lisa Youngblood • Executive Director, Marketing and Communications, Rail-Veyor Technologies Global Inc.

Lisa Youngblood is the executive director of marketing and communications for Rail-Veyor Technologies Global Inc. She is responsible for creating and directing marketing programs including developing the brand’s strategic vision, messages, and objectives. Lisa works with the senior management team to build internal and external communications utilizing writing, photography, videography, social media and press engagement. She officially joined the Rail-Veyor team in February 2020, but first became familiar with the company as an outside consultant for two years. She has an extensive background in marketing, sales, education, and leadership and a degree in visual communications.
